Marwest Apartment Real Estate Investment Trust

Management's Discussion and Analysis

For the three and six months ended June 30, 2021

(Expressed in Canadian Dollars)

The following Management's Discussion and Analysis ("MD&A") of the financial condition and results of operations of Marwest Apartment Real Estate Investment Trust ("the Trust") should be read in conjunction with the Trust's condensed consolidated interim financial statements and the notes thereto for the period ended June 30, 2021, which are available on the Trust's profile on the System for Electronic Document Analysis and Retrieval (SEDAR) at www.sedar.com. The financial information contained in this MD&A has been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The Trust had no operations in the six months ended June 30, 2020 as the Trust was not established until July 2, 2020, therefore there is no comparative information presented in this MD&A.

The Trust's Board of Trustees approved the content of this Management's Discussion and Analysis on August 24, 2021. Disclosure in this document is current to that date unless otherwise stated. Additional information relating to the Trust can be found on SEDAR at www.sedar.com and also on the Trust's website at www.marwestreit.com.

Forward-Looking Disclaimer

Certain statements contained in this MD&A constitute forward-looking statements within the meaning of applicable Canadian securities laws which reflect the Trust's current expectations and projections about future results. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "estimates", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Trust to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. The forward-looking statements made in this MD&A relate only to events or information as of the date on which the statements are made in this MD&A. Actual results and developments are likely to differ, and may differ materially from those expressed or implied by the forward-looking statements contained in this MD&A. Such forward-looking statements are based on a number of assumptions that may prove to be incorrect. Except as specifically required by applicable Canadian securities law, the Trust undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. These forward-looking statements should not be relied upon as representing the Trust's views as of any date subsequent to the date of this MD&A. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The factors identified above are not intended to represent a complete list of the factors that could affect the Trust. The MD&A may contain certain statements of current estimates, expectations, forecasts and projections.

OVERVIEW

The Trust is an unincorporated, open-ended real estate investment trust established pursuant to a Declaration of Trust dated July 2, 2020, which was amended on April 30 pursuant to an amended and restated declaration of trust (the "Declaration of Trust"). The Trust owns and operates a portfolio of income-producing multi-family rental properties located in Western Canada.

The Trust's Units are listed on the Toronto Venture Exchange ("TSX-V") under the symbol "MAR.UN".

The Trust's portfolio consists of two multi-family residential rental properties located in Winnipeg, Manitoba, comprising an aggregate of 251 rental units. These properties were purchased on April 30, 2021 and are indirectly owned by Marwest REIT L.P., a wholly owned subsidiary of the Trust.

The Trust did not have any investment operations in the comparable period as operations had yet to commence.

The Trust was established under the laws of Manitoba. The principal and registered office of the Trust is 500-220 Portage Avenue, Winnipeg, Manitoba.

Current Portfolio

The Trust's current portfolio consists of newer generation investment properties that were constructed in 2006 (103 units), and 2017-2019 (148 units). Newer generation portfolios typically require fewer maintenance expenses and capital expenditures compared to older generation portfolios, and in Manitoba, new generation rentals are generally exempt from rent control. The Manitoba Government has enacted a rental freeze in 2022 and 2023, whereby landlords are not permitted to increase rental rates outside of the rental guidelines, subject to certain exemptions. Both multi-family rental properties that the Trust has acquired in its qualifying transaction are exempt from the rental freeze due to the age of the buildings and the Trust will continue to adjust rental rates as the market allows.

Acquisition Pipeline

The Trust has a relationship with the Marwest Group of Companies ("Marwest Group") which is a private group of companies held by related parties of Marwest Asset Management Inc. (the "Manager"). The relationship with the Marwest Group affords the Trust the opportunity to potentially access the Marwest Group's development pipeline, which consists of certain properties that are stabilized and under development in Western Canada. Through related parties, the Marwest Group owns an interest in the pipeline properties. The pipeline is invaluable to the Trust, as it provides the Trust with potential access to acquire properties prior to the properties being listed on the open market, thus assisting the Trust to achieve its growth strategy. The independent Trustees will be responsible for the negotiation of the purchase price of the property/properties or Limited Partnership(s) from the Marwest Group and/or any related parties or third parties with an interest in the asset.

The Trust will also seek third party acquisitions from other developers or multi-family owners in target markets across Western Canada.

As at the date hereof, the Trust has not entered into a definitive agreement to acquire any additional properties, whether from the Marwest Group and/or related parties or third parties.

Payout Ratio

The Trust intends to commence distributions to all Unitholders of record on December 31, 2021, with payment on or around January 15, 2022. Management estimates the monthly distribution to be twenty percent (20%) of its estimated run-rate 2022 AFFO. The payout ratio is anticipated to provide the Trust with the flexibility to increase distributions over time while retaining a strong cash position to allow for future acquisitions and portfolio growth.

Business Strategy and Objectives

The objectives of the Trust are:

- (a) to grow Unitholder value through capital investment strategies, and active asset and property management;
- (b) to provide Unitholders with stable and predictable cash distributions that grow over the long term; and
- (c) to grow the Trust's asset base across strategic markets through intensification and acquisition programs.

Management believes it can accomplish these objectives given access to the capital markets and the relationship that the Trust has with the Marwest Group.

Declaration of Trust

The investment policies of the Trust are outlined in the Declaration of Trust, a copy of which is available on SEDAR. Some of the principal investment guidelines and operating policies set out in the Declaration of Trust are set out below:

- The Trust will focus on acquiring, holding, developing, maintaining, improving, leasing and managing
 income-producing rental assets within Canada and other jurisdictions the Trustees may determine from
 time to time;
- The Trust may make its investments and conduct its activities directly or indirectly, through an investment by way of joint ventures, co-ownerships, partnerships (general or limited) and limited liabilities companies;
- The Trust may invest in mortgages and mortgage bonds and similar instruments where: (i) the real
 property which is security for such mortgages and similar instruments is income producing real property
 which otherwise meets the other investment guidelines of the Trust; or (ii) the aggregate book value of

the investments of the Trust in mortgages, after giving effect to the proposed investment, will not exceed 15% of Gross Book Value;

- Once the Gross Book Value reaches \$300,000,000, the Trust shall not incur or assume any indebtedness
 if, after giving effect to the incurring or assumption of the indebtedness, the total indebtedness of the Trust
 would be more than 75% of Gross Book Value or, if determined by the Independent Trustees, in their sole
 and absolute discretion, more than 75% of the appraised value of the assets and properties of the Trust
 and its Subsidiaries instead of Gross Book Value;
- The Trust will follow proper business practices when looking to acquire an investment property by way of obtaining appraisals, environmental reports, and sufficient insurance coverage.

As of August 24, 2021, the Trust was in compliance with its investment guidelines and operating policies.

The foregoing is a general summary only and is qualified entirely by the terms of the Declaration of Trust.

Non-IFRS Measures

The Trust's financial statements are prepared in accordance with IFRS. Management's Discussion and Analysis also contains certain non-IFRS measures commonly used by entities in the real estate industry as useful metrics for measuring performance. Readers are cautioned that the following measures as calculated by the Trust may not be comparable to similar measures presented by others as there is no standardized meaning of the non-IFRS measures under IFRS. Readers are cautioned to not place undue reliance on such non-IFRS measures.

Net Property Operating Income ("NOI")

The Trust calculates Net Property Operating Income as revenue less property operating expenses such as utilities, repairs and maintenance and realty taxes. Charges for interest or other expenses not specific to the day-to-day operations of the Trust's properties are not included.

Funds from Operations ("FFO")

The Trust calculates FFO substantially in accordance with the guidelines set out in the white paper titled "White Paper on Funds from Operations & Adjusted Funds from Operations for IFRS" by the Real Property Association of Canada ("REALpac") as revised in February 2019. FFO is defined as IFRS consolidated net income adjusted for items such as unrealized changes in the fair value of the investment properties, effects of puttable instruments classified as financial liabilities and changes in fair value of financial instruments and derivatives. FFO should not be construed as an alternative to net income or cash flows provided by or used in operating activities determined in accordance with IFRS. The Trust regards FFO as a key measure of operating performance.

Adjusted Funds from Operations ("AFFO")

The Trust calculates AFFO substantially in accordance with the guidelines set out in the white paper titled "White Paper on Funds from Operations & Adjusted Funds from Operations for IFRS" by REALpac as revised in February 2019. AFFO is defined as FFO adjusted for items such as maintenance capital expenditures and straight-line rental revenue differences. AFFO should not be construed as an alternative to net income or cash flows provided by or used in operating activities determined in accordance with IFRS. The Trust regards AFFO as a key measure of operating performance. The Trust also uses AFFO in assessing its capacity to make distributions.

The following other non-IFRS measures are defined as follows:

- ° "FFO per unit" is calculated as FFO divided by the weighted average number of Units of the Trust and Exchangeable Units of Marwest REIT L.P. (the "Partnership") outstanding over the period
- "AFFO per unit" is calculated as AFFO divided by the weighted average number of Units of the Trust and Exchangeable Units of the Partnership outstanding over the period
- "AFFO Payout Ratio" is the proportion of the total distributions on Trust Units and Exchangeable Units of the Partnership to AFFO
- "Debt-to-Gross Book Value ratio" is calculated by dividing total interest-bearing debt consisting of mortgages by total assets and is used as the REIT's primary measure of its leverage.
- "Debt Service Coverage ratio" is the ratio of NOI to total debt service consisting of interest expenses recorded as finance costs and principal payments on mortgages.

FINANCIAL OPERATIONS AND RESULTS

Since the acquisition of the initial portfolio the Trust has been operating under the ongoing challenges related to the COVID-19 pandemic. The Trust reported strong occupancy numbers for the first two months of operations, without experiencing any set-backs related to collections or the valuation of investment properties. The Trust has followed all public health guidelines, such as closing on-site fitness facilities, closing common areas, continuing to lease apartments with virtual showings or by appointment only, as well as enhanced cleaning of high-touch surfaces, and lastly encouraging the use of online portals to coordinate resident service requests and rental payments.

Lease Payments and Collections

Management continues to see multi-family rentals experience little downside during the pandemic. Rental collections have continued at pre-pandemic levels and occupancy rates remain high for the class of assets that the Trust has acquired.

If a resident experiences a loss of work, Marwest Asset Management Inc. ("MAM" or the "Manager"), the manager of the Trust, has the ability to negotiate repayment terms with the resident, or early termination of leases if that is in the best interest of the Trust. MAM continually reviews outstanding tenant receivables and continues to communicate with tenants regarding the payment of rent on time.

Since April 30, 2021 the Trust has had a turnover ratio of 32 percent and an occupancy rate of 98.6 percent.

Outlook

Management believes it will continue to acquire additional properties, in the near future, due to the strategic relationship that the Trust has with the Marwest Group and the ability to raise capital within the market. Management is currently pursuing opportunities for additional potential acquisitions within the next twelve months.

Liquidity

The Trust's liquidity ratio (total liquidity as a percentage of total debt) was 11.18 percent at June 30, 2021. The Trust's Debt-to-Gross Book Value ratio is 75.4 percent at June 30, 2021. The liquidity needs of the Trust are funded primarily by cash flows from operating the Trust's investment properties. Cash flow from operations are dependent on occupancy rates, rental rates, collection of operating costs and the level of operating expenses.

Valuation

Fair value of residential properties is typically determined using the direct capitalization approach. Stabilized net property operating income for each property is capitalized at an appropriate capitalization rate and then a deduction is made for certain capital expenditures that each property may require. Stabilized net operating income for each property is estimated by forecasting results for the following 12-month period. Capitalization rates reflect the characteristics, location and market of each property. Fair value is determined based on internal valuation models incorporating market data and valuations performed by external appraisers. At June 30, 2021 both properties were valued internally by management. The weighted-average capitalization rate used at June 30, 2021 was 5.22 percent.

The Trust's investment properties are recorded at a fair value of \$54,200,000 at June 30, 2021 and for the six-months ended the Trust recorded a fair value gain of \$257,780.

Performance Measures

The following outlines the IFRS and non-IFRS measures that the Trust uses to measure performance for the six months ended June 30, 2021:

Operating	
Number of properties	2
Total multi-family units	251
Total rentable square feet	236,091
Average monthly rent per suite	\$ 1,508.95
Weighted average occupancy rate	98.6%
Rent collection at June 30, 2021	97.6%

Financial measures	
Revenue	\$ 778,955
NOI ¹	492,877
NOI Margin ¹	63.3%
FFO ¹	
Net loss and comprehensive loss	(510,871)
Fair value gain on properties	(257,780)
Fair value loss on exchangeable units	981,206
FFO ¹	212,555
FFO/unit ¹	\$ 0.03
AFFO ¹	
FFØ	\$ 212,555
Capital expenditures	(28,281)
Leasing costs	(15,144)
AFFO ¹	169,130
AFFO/unit ¹	\$ 0.03
AFFO payout ratio 1	 n

Leverage:	
Debt-to-Gross Book Value ratio 1:	
Total interest-bearing debt	\$ 42,651,077
Total assets on balance sheet	56,573,457
Debt-to-Gross Book Value ratio ¹	75.4%
Debt Service Coverage ratio ¹ :	
Net Property Operating Income ¹	\$ 492,877
Mortgage payments for the period	356,878
Debt Service Coverage ratio ¹	1.38
Weighted average term to maturity on fixed rate debt	82.42 months
Weighted average interest rate on fixed debt	2.78%

Review of Financial Performance

The following tables highlight selected information for the Trust's portfolio for the period ended June 30, 2021:

Summary of Statement of Net loss	
Revenue from investment properties	\$ 778,955
Property operating expenses	(203,542)
Realty taxes	(82,536)
Net Property Operating Income ¹	492,877
NOI Margin 1	63.30%
General and administrative	(105,109)
Finance costs	(175,213)
Fair value gain (loss) on:	
Investment properties	257,780
Exchangeable Units	(981,206)
Net Loss and Comprehensive Loss	\$ (510,871)

Net property operating income

Since acquiring the two properties on April 30, 2021, the Trust reported \$492,877 of net property operating income.

Revenue from investment properties consists of rental revenue from residential lease agreements, parking revenue and other property income.

General and administrative expenses

General and administrative expenses relate to the administration of the Trust, including: legal fees, audit fees, Trustee compensation, other public company costs.

Finance costs

Finance costs comprise of interest expense on mortgages payable; amortization of financing charges and mark-to-market adjustments on the mortgages payable, and is offset by interest income.

Summary of Finance costs							
Interest on mortgages	\$	197,935					
Amortization of financing charges		9,494					
Amortization of mark-to-market adjustments		(31,016)					
Interest income		(1,200)					
Total	\$	175,213					

Fair value loss on Exchangeable Units

The Exchangeable Units are issued by MAR REIT L.P. The Exchangeable Units are economically equivalent to Trust Units, in that it will receive distributions equal to the distributions paid on Trust Units and are exchangeable into Trust Units at the holder's option. The Exchangeable Units are classified as financial liabilities and measured at fair value with any changes in fair value recorded in net income. The fair value gain or loss on the Exchangeable Units is measured every period by reference to the closing trading price of the Trust Units. An increase in the Trust Unit closing price over the period results in a fair value loss, whereas a decrease in the Trust Unit closing price results in a fair value gain.

For the period ended June 30, 2021, the Unit price increased from \$1.00 to \$1.10, resulting in a fair value loss of \$981,206.

Assessment of Financial Position

Investment Properties

The following table summarizes the changes in investment properties

Summary of Changes in Investment Properties	
Operating balance	\$ -
Additions:	
Acquisitions of investment properties	53,898,795
Capital expenditures	28,281
Direct leasing costs	15,144
Fair value gain	257,780
Closing balance	\$ 54,200,000

Capital expenditures incurred related to suite upgrades.

Valuation

Under the direct capitalization approach the estimated 12 month stabilized forecasted net property operating income is utilized on the individual properties, less estimated aggregate future capital expenditures to determine fair value. Capitalization rates fluctuate based on market conditions. The weighted-average capitalization rates for the properties were 5.22 percent at June 30, 2021.

Exchangeable Units

The Exchangeable Units will receive distributions equivalent to the distributions that will be paid on Trust Units and are exchangeable at the holder's option into Trust Units. One Special Voting Unit in the Trust is issued to the holder of Exchangeable Units for each Exchangeable Unit held. The limited IAS 32 exception for presentation as equity does not extend to Exchangeable Units. As a result, the Exchangeable Units are classified as financial liabilities.

At June 30, 2021 and August 24, 2021, there were 9,812,063 Exchangeable Units and Special Voting Units outstanding.

Mortgages Payable

The Trust's mortgages are at fixed interest rates that are secured by the investment properties. The mortgages bear interest at a weighted average contractual interest rate of 2.78 percent and mature at dates between October 2023 and June 2030.

Trust Units

The Trust's Declaration of Trust authorizes the issue of an unlimited number of Trust Units. As at June 30, 2021, there were 4,559,673 Trust Units outstanding with a carrying value of \$3,131,763. As at August 24, 2021, there were 8,831,564 Trust Units and 4,271,891 warrants outstanding.

Liquidity, Capital Resources and Contractual Commitments

The Trust's capital structure is set out in the table below:

Liabilities	
Exchangeable Units	\$ 10,793,269
Mortgages	42,296,738
Unitholders' equity	2,518,691
Unitholders' equity	\$ 55,608,698

The Exchangeable Units are economically equivalent to Trust Units and are exchangeable for Trust Units at the Exchangeable Unitholders' option. The limited IAS 32 exception for presentation as equity does not extend to the Exchangeable Units. Exchangeable Units are not indebtedness for borrowed money and are not included in the determination of Debt-to-Gross Book Value ratio.

The Trust expects to be able to meet all of its current ongoing obligations and expects to finance future acquisitions by issuing equity and using leverage as needed. Liquidity is also expected to be provided by cash flow from operations.

Cash Flows and Use of Funds

Cash provided by operating activities	\$ 62,748
Cash provided by investing activities	117,779
Cash provided by financing activities	601,577
Change in cash during the period	\$ 782,104

Until April 30, 2021, the Trust was a capital pool corporation under the TSX Venture Exchange ("TSX-V") with limited operating activities before completing the qualifying transaction on that date.

ACCOUNTING ESTIMATES AND POLICIES, CONTROLS AND PROCEDURES AND RISK ANALYSIS

Critical Judgments in Applying Accounting Policies

The following are the critical judgments that have been made in applying the Trust's accounting policies:

Investment Property Acquisitions

The Trust must assess whether an acquisition transaction should be accounted for as an asset acquisition or a business combination under IFRS 3. This assessment requires Management to make judgments on whether the assets acquired and liabilities assumed constitute a business as defined in IFRS 3 and if the integrated set of activities, including inputs and processes acquired, are capable of being conducted and managed as a business and the Trust obtains control of the business.

Income Taxes

The Trust is a mutual fund trust and a real estate investment trust as defined in the Income Tax Act (Canada). The Trust is not liable to pay Canadian income taxes provided that its taxable income is fully distributed to Unitholders each year. The Trust is a real estate investment trust if it meets the prescribed conditions under the Income Tax Act (Canada) relating to the nature of its assets and revenue. The Trust uses judgment in reviewing the real estate investment trust conditions and assessing their interpretation and application to the Trust's assets and revenue, and has determined that it qualifies as a real estate investment trust for the current period.

Critical Accounting Estimates and Assumptions

The Trust makes estimates and assumptions that affect the carrying amounts of assets and liabilities and the reported amount of income for the period. Actual results could differ from estimates. The estimates and assumptions that the Trust considers critical include the valuation of residential investment properties. In applying the Trust's policy with respect to investment properties, estimates and assumptions are required to determine the valuation of the properties under the fair value model.

The Trust has used the best information available as at June 30, 2021, in determining the potential impact of the COVID-19 pandemic on the carrying amounts of assets and liabilities, earnings for the period and risks disclosed in the condensed consolidated interim financial statements for the period ended June 30, 2021. The estimates that could be most significantly impacted by COVID-19 include those underlying the valuation of investment properties and the estimated credit losses on accounts receivable. Actual results may differ from those estimates.

Risks and Uncertainties

The Trust faces a variety of risks, many of which are inherent in the real estate business. They include, but are not limited to, the following:

Operating History

The Trust has just commenced operations and does not have an operating history. The Trust's growth is dependent on identifying and acquiring investment properties that are accretive to AFFO and FFO.

Real Estate Industry Risk

Risks in the real estate industry include changes in general economic conditions (such as the availability and cost of mortgage financing), local conditions (such as an oversupply of space or a reduction in the demand for real estate in the area), government regulations (such as new or revised residential tenancies legislation), the attractiveness of the properties to tenants, competitors in the area, as well as the ability to find and maintain tenancies where the tenants have stable employment, which is a risk during the COVID-19 pandemic.

Real estate is relatively illiquid, with the degree of liquidity fluctuating in relation to demand for the perceived desirability of the assets. Such illiquidity may limit the Trust's ability to vary its portfolio promptly in response to changing economic, investment or other conditions. If it were necessary to accelerate the liquidation of the Trust's investment properties, the proceeds may be significantly less than the fair market value of its properties. The Trust is currently operating in a concentrated geographic area, which increases the risk if a downturn in the local conditions of the area in which the Trust's investment properties are located.

The Trust is exposed to significant expenditure, such as property taxes, utilities, insurance and mortgage payments. These cost have very little fluctuations based on occupancy rates of the investment properties. As stated, the Trust's properties require significant mortgage payments, and if the Trust were unable to meet the mortgage payment obligations, losses could be sustained as a result of the mortgagee's exercise of its rights of foreclosure or of sale.

The Trust owns newer generation properties which require ongoing maintenance and enhancements for the benefit of our residents. Management does not expect to incur significant capital expenditures over the coming twelve months.

Property Acquisition Risk and Access to Capital

The Trust's growth is dependent on identifying and acquiring investment properties that provide accretive acquisitions related to AFFO, FFO, and commencing distributions to Unitholders. If the Trust cannot complete further acquisitions it will have a negative impact on the ability to generate stable cash flows and future distributions. The current market to acquire multi-family properties is very competitive, thereby increasing purchase prices and decreasing yields. Competitors may have access to greater financial resources than those of the Trust. The Trust may require additional financing or capital raises to complete acquisitions which may or may not be available. The Trust has a strategic relationship with the Marwest Group of Companies which provides potential future acquisition opportunities. Further details regarding the acquisition pipeline can be found on SEDAR in the prospectus dated August 3, 2021.

The Trust needs access to capital markets in order to continue to acquire properties and/or restructure mortgage debt. There can be no assurances that the Trust will have access to sufficient capital or access to capital on favourable terms for future property acquisitions, financing or refinancing purposes, or funding operating expenses. Failure of the Trust to access required capital could have a material adverse effect on the Trust's business, cash flows, financial condition and financial performance and ability to make distributions to Unitholders.

Changes in Legislation

The Trust is subject to laws and regulations governing the ownership and leasing of real property, landlord/tenant relationships, employment standards, environmental matters, taxes and other matters, including laws and regulations imposing restrictions to limit the spread of the COVID-19 pandemic and laws and regulations limiting rent increases and imposing restrictions on evictions during the COVID-19 pandemic. It is possible that future changes in applicable federal, provincial, municipal or common laws or regulations or changes in their enforcement or regulatory interpretation could result in changes in the legal requirement affecting the Trust (including with retroactive effect). Any changes in the laws to which the Trust is subject could materially adversely affect the Trust's rights and title to its assets or its ability to carry on its business in the ordinary course.

Risks Associated with External Asset and Property Management Agreement

The Trust relies on MAM with respect to the management of the Trust's assets and the management of the Trust's properties. If the Trust were to lose the services provided by MAM, the Trust may experience an adverse impact on its business operations. The Trust may be unable to duplicate the quality and depth of the services available to it by handling such services internally or by retaining another service provider.

Litigation

The Trust may become directly or indirectly involved in legal proceedings, including regulatory proceedings, tax proceedings and legal actions relating to personal injuries, property damage, property taxes, land rights, the environment and contract disputes. The outcome with respect to outstanding, pending or future proceedings cannot be predicted with certainty and may be determined in a manner adverse to the Trust and as a result could have a material adverse effect on the Trust's assets, liabilities, business, financial condition and performance. Even if the Trust prevails in such proceedings, the cost and diverted time of management could negatively impact the Trust.

Appraisals of Properties

An appraisal is an estimate of market value and caution should be used in evaluating data with respect to appraisals. It is an estimate of value based on information gathered in the investigation, appraisal techniques employed and reasoning both quantitative and qualitative, leading to an opinion of value. Appraisals are based on various assumptions of future expectations of property performance and while the appraiser's internal forecast of net income for the properties appraised are considered to be reasonable at that time, some of the assumptions may not materialize or may differ materially from actual experience in the future. Appraisals are not guarantees of present or future value and there is no assurance that an appraised value actually reflects an amount that would be realized upon a current or future sale of any of the properties or that any projections included in the appraisal will be attainable. In addition, as prices in the real estate market fluctuate over time in response to numerous factors, the value of the a property as shown in an appraisal may be an unreliable indication of its current market value.

A publicly traded real estate investment trust will not necessarily trade at values determined solely by reference to the underlying value of its real estate assets. Accordingly, the Trust Units may trade at a premium or a discount to values implied by appraisals.

General Uninsured Losses

The Trust carries comprehensive general liability, fire, flood, extended coverage and rental loss insurance with policy specifications, limits and deductibles customarily carried for similar properties. There are certain types of risks which are uninsurable or not economically insurable. Should an uninsured or underinsured loss occur, the Trust could lose its investment in, and anticipated profits and cash flows from, one or more of its properties, and would continue to be obligated to repay any recourse mortgage indebtedness on such properties. There is a risk that any significant increase in insurance costs will impact negatively upon the profitability of the Trust.

Key Personnel

The Trust's executive officers have a significant role in the Trust's success and oversee the execution of the Trust's strategy. The Trust's ability to retain its management team or attract suitable replacements should any members of the management team leave is dependent on, among other things, the competitive nature of the employment market.

Tax-related Risks

- 1. Mutual Fund Trust Status The Trust intends to qualify at all relevant times as a "mutual fund trust" for purposes of the Tax Act. There can be no assurance that Canadian federal income tax laws and the administrative policies and practices of the CRA respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects the Unitholders.
- 2. The REIT Exception Canadian tax legislation relating to the federal income taxation of Specified Investment Flow Through trusts or partnerships provided that certain distributions from a SIFT will not be deductible in computing the SIFT's taxable income and that the SIFT will be subject to tax on such distributions at a rate that is substantially equivalent to the general tax rate applicable to Canadian corporations. However, distributions paid by a SIFT as return of capital should generally not be subject to tax. Under the SIFT rules, the taxation regime will not apply to a real estate investment trust that meets prescribed conditions relating to the nature of its assets and revenue (the "REIT Exception"). The REIT Exception is comprised of a number of technical tests and the determination as to whether the Trust qualifies for the REIT Exception in an particular taxation year can only be made with certainty at the end of that taxation year. The Trust expects to qualify for the REIT Exception in 2021 and subsequent taxation years, such that it will be exempt from the SIFT rules. However, no assurances can be given that the Trust will satisfy the REIT Exception in any particular year. If the SIFT rules apply to the Trust, they may adversely affect the marketability of the Units, the amount of cash available for distributions and the after-tax return to investors.
- 3. Non-resident ownership Under current law, a trust may lose its status under the Tax Act as a mutual fund trust if it can reasonably considered that the trust was established or is maintained primarily for the benefit on Non-Residents, except in limited circumstances. Accordingly, the Declaration of Trust provides that Non-Residents may not be the beneficial owners of more than 49% of the Trust Units (determined on a basic or fully-diluted basis). The Trustees also have various powers that can be used for the purpose of monitoring and controlling the extent of a Non-Resident ownership of the Trust Units.
- 4. Tax-Basis of Acquired Properties The partnership has acquired, and may from time to time in the future acquire, certain properties on a fully or partially tax-deferred basis, such that the tax cost of these properties will be less than their fair market value. If one or more of such properties are disposed of, the gain realized by the Partnership for tax purposes (including any income inclusions arising from the recapture of previously claimed CCA on depreciable property) will be in excess of that which it would have realized if it had acquired the properties at a tax cost equal to their fair market values. For the purpose of claiming CCA, the UCC of such properties acquired by the Partnership will be equal to the amounts jointly elected by the Partnership and the transferor on a tax-deferred acquisition of such property. The UCC of such property will be less than the fair market value of such property. As a result, the CCA that the Partnership may claim in respect of such properties will be less than it would have been if such properties had been acquired with a tax cost basis equal to their fair market values.

5. General taxation – There can be no assurance that Canadian federal or provincial tax laws, the judicial interpretation thereof, or the administrative and assessing practices and policies of the CRA, the Department of Finance (Canada) and any other tax authority or tax policy agency will not be changed in a manner that adversely affects the Trust, its affiliates or Unitholders, or that any such taxing authority will not challenge tax positions adopted by the Trust and its affiliates. Any such change or challenge could increase the amount of tax payable by the Trust or its affiliates or could otherwise adversely affect Unitholders by reducing the amount available to pay distributions or changing the tax treatment applicable to Unitholders in respect of such distributions.

Financial Risk Management

In the normal course of business, the Trust is exposed to a number of risks that can affect its operating performance.

These risks and the actions taken to manage them are as follows:

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk consists of interest rate risk, currency risk and other price risk.

Interest rate risk is the risk that changes in market interest rates will affect the Trust's financial instruments. As of June 30, 2021, the Trust's mortgages bore interest at fixed rates.

Management monitors anticipated interest rate changes and mitigates the negative impact of interest rate increases by locking in interest rates early where applicable.

The Trust's financial statement presentation currency is in Canadian dollars. Operations are located in Canada and the Trust has limited operational transactions in foreign-denominated currencies. As such, the Trust has no significant exposure to currency risk.

Other price risk is the risk of variability in fair value due to movements in equity prices or other market prices such as commodity prices and credit spreads.

The Trust is exposed to other price risk on its Exchangeable Units. A 1% change in the prevailing market price of the Exchangeable Units as at June 30, 2021 would have a \$107,933 change in the fair value of the Exchangeable Units.

ii) Credit risk

Credit risk is the risk that tenants may experience financial difficulty and be unable to fulfill their lease commitments. An allowance for impairment is taken for all expected credit losses.

Management mitigates this risk by carrying out appropriate due diligence on the prospective tenant and obtaining security deposits. Management monitors the collection of residential rent receivables on a regular basis with strict procedures that fall within the provincial regulations designed to minimize credit loss in the case of non-payment. The risk of exposure to credit risk is generally limited to the carrying amount of the financial statements.

The Trust's maximum exposure to credit risk is equivalent to the carrying value of each class of financial asset as separately presented in cash and accounts and other receivables.

Management assesses the impairment of tenant receivables on an individual basis and uses the simplified approach measure expected credit losses; this will be at the lifetime expected credit losses associated with the arrangement.

Management determines that an amount receivable is credit impaired based upon previous collection history, as well as forward looking information where available regarding economic trends in the tenant's industry and the region the tenant is in. Impairment losses are recognized in the condensed consolidated interim statement of income and comprehensive income within investment properties operating expenses.

(iii) Liquidity risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they become due. The Trust manages this risk by ensuring it has sufficient cash on hand to meet obligations as they come due by forecasting cash flows from operations, cash required for investing activities and cash from financing activities.

An analysis of the contractual cash flows at June 30, 2021 associated with the Trust's material financial liabilities is set out below:

							2025 and	
		2021	2022	2023	2024	t	hereafter	Total
Mortgages payable principal and	-							
interest Accounts payable and accrued	\$	1,053,011	\$ 2,106,164	\$ 14,184,191	\$ 1,334,540	\$	30,079,544	\$ 48,757,450
liabilities		260,426	-	-	-		-	260,426
Security deposits								
		282,700	-	=	-		=	282,700
	\$	1,596,137	\$ 2,106,164	\$ 14,184,191	\$ 1,334,540	\$	30,079,544	\$ 49,300,576

COVID-19 risk

In the month of March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization and has had a significant financial, market and social dislocating impact. The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and the financial effect on the Trust is not known at this time.

RELATED PARTY TRANSACTIONS

In the normal course of operations, the Trust enters into various transactions with related parties. In addition to the related party transaction disclosed elsewhere in the consolidated interim financial statements, related party transactions

	Property management fees	\$ 33,723
	Salary reimbursement	30,169
include:	Board compensation	16,216

On July 2, 2020, the Trust issued 800,000 Trust Units to certain seed Unitholders, including Trustees, Officers and related parties of the Trust, at \$0.25 per Unit for gross proceeds of \$200,000.

On April 30, 2021, in conjunction with the closing of the qualifying transaction, the Trust issued 4,006,308 of the Exchangeable Units of MAR REIT L.P. and 168,965 Trust Units were issued to related parties of the Trustees, Officers and related parties of the Trust.

On April 30, 2021, the Trust and MAM entered into an asset management agreement with a term of ten years, with subsequent renewal periods for further five-year terms. On April 30, 2021, a sub-agreement between MAM and Marwest Management Canada Ltd., a company under common control, was completed for the property management of Marwest Apartments I L.P. and Marwest Apartments VII L.P.

The Board of Trustees will be issued Deferred Units, \$13,202 which was accrued at the end of June 30, 2021. The Trustees were also remunerated \$1,000 per board meeting subsequent to the completion of the qualifying transaction on April 30, 2021, for a total of \$3,014.

CONTINGENCIES AND COMMITMENTS

The Trust is subject to claims and legal actions that arise in the ordinary course of business. It is the opinion of Management that any ultimate liability that may arise from such matters would not have a significant adverse effect on the condensed consolidated financial statements of the Trust.

FUTURE CHANGES IN ACCOUNTING STANDARDS

The following accounting standards under IFRS have been issued or revised, however are not yet effective and as such have not been applied by the Trust.

Classification of Liabilities as Current or Non-Current

On January 23, 2020, the IASB issued amendments to IAS 1, Presentation of Financial Statements, providing a more general approach to the classification of liabilities based on the contractual agreements in place at the reporting date. The amendments apply to annual reporting periods beginning on or after January 1, 2023, earlier adoption is permitted.

The amendments to IAS 1 affect only the presentation of liabilities in the balance sheet and seek to clarify that the classification of liabilities as current or non-current should be based on the rights that are in existence at the end of the reporting period. Further, the amendments make clear that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and that the settlement of a liability refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The Trust intends to adopt the amendments in its consolidated financial statements beginning on January 1, 2023 when the amendments become effective. The Trust is assessing the potential impact of the amendments, however does not expect them to have a material impact on the Trust's consolidated financial statement.

SUBSEQUENT EVENTS

On August 10, 2021, the Trust issued 4,271,891 Trust Units in connection with a short-form prospectus dated August 3, 2021. Total gross cash proceeds from the issuance was \$4,699,080. Each Trust Unit was issued with a warrant attached, whereby the warrant holder may purchase one Trust Unit for each warrant held at price of \$1.20 per Trust Unit. The warrant is exercisable for 12 months from the date of initial issuance.
