The MD&A may contain certain statements of current estimates, expectations, forecasts and projections.

ABOUT MARWEST APARTMENT REAL ESTATE INVESTMENT TRUST

The Trust's objectives are to grow Unitholder value through capital investment strategies and active asset and property management, to provide Unitholders with stable and predictable cash distributions that grow over the long term, and to grow the Trust's asset base across strategic markets through intensification and acquisition programs.

Since inception the Trust has completed the acquisition of 516 new generation apartment units in Winnipeg, Manitoba, 363 units were acquired in 2021 and 153 units were acquired in 2022. The Marwest Group of Companies (the "Marwest Group"), which are companies under common control with Marwest Asset Management Inc. (the "Manager"), the asset manager of the REIT, have operated in real estate development, construction and management within Western Canada for over 50 years. Management believes Winnipeg is a relatively stable multi-family rental market with relatively low vacancy rates and is friendly to immigration. Manitoba, like many other provinces, has rent control, whereby rental rate increases on certain properties are capped at a government specified percentage each year. The legislated increase for 2023 is zero (0) percent and 2024 is three (3) percent. While all 516 rental units of the Trust are exempt from rent control as they were constructed within the last 20 years, the exempt period in Manitoba, 225 of the 516 units have restrictive financing agreements with the Canada Mortgage and Housing Corporation relating to affordable housing programs.

The development and construction of multi-family properties by the Marwest Group gives the Trust a potential opportunity to purchase newly developed real estate in locations of interest to the Trust.

OVERVIEW

The REIT is an unincorporated real estate investment trust governed by the amended and restated declaration of trust dated April 30, 2021 (the "Declaration of Trust") and by the laws of the Province of Manitoba. The REIT was formed on July 2, 2020 under the name "Marwest Apartment Real Estate Investment Trust" and converted to an open ended trust effective April 30, 2021. The Trust Units are listed on the Toronto Venture Exchange ("TSX-V") under the symbol "MAR.UN".

The Trust's portfolio consists of four multi-family residential rental properties located in Winnipeg, Manitoba, comprising an aggregate of 516 rental units, as follows: (i) the 74 unit multi-family rental apartment property located at 160 Eaglewood Drive in Winnipeg, Manitoba and the 74 unit multi-family rental apartment property located at 140 Eaglewood Drive in Winnipeg, Manitoba (collectively, the "Brio Property"); (ii) the 103 unit multi-family rental apartment property known as "Kenwood Court" located at 333-337 Warde Avenue in Winnipeg, Manitoba (the "Kenwood Property"); (iii) the forty (40) unit multi-family rental apartment property located at 85 Fiorentino Street in Winnipeg, Manitoba; and the seventy-two (72) unit multi-family rental apartment property located at 30 El Tassi Drive in Winnipeg, Manitoba (collectively, the "Element Property") and (iv) the 153 unit multi-family rental apartment located at 2766 Main Street in Winnipeg, Manitoba (the "Prairie View Pointe Property").

MAR REIT LP (the "Partnership") beneficially owns the Prairie View Pointe Property directly and indirectly beneficially owns the Brio Property, the Kenwood Property and the Element Property through Marwest Apartments VII L.P. ("Brio LP"), Marwest Apartments I L.P. ("Kenwood LP") and Marwest (Element) Apartments L.P. ("Element LP"), respectively, each of which is a limited partnership formed under the laws of the Province of Manitoba. The Partnership also owns all of the shares of Marwest Apartments VII G.P. Ltd., Marwest Apartments I G.P. Ltd. and Marwest (Element) Apartments G.P. Inc., which are the general partners of Brio LP, Kenwood LP and Element LP, respectively. Legal title to each of the REIT's properties is held through separate bare trustee corporations owned by the Partnership (in the case of the Prairie View Pointe Property) and, in respect of the Brio Property, the Kenwood Property and the Element Property, owned by Brio LP, Kenwood LP and Element LP, respectively.

The Partnership is a limited partnership formed under the laws of the Province of Manitoba and governed by the limited partnership agreement dated April 19, 2021. The authorized equity and voting securities of the Partnership are comprised of Class A limited partnership units of the Partnership, all of which are owned by the REIT, and Class B limited partnership unit of the Partnership, exchangeable on a one-for-one basis (subject to customary anti-dilution adjustments) for a Trust Unit of the REIT at the election of the holder ("Exchangeable Units"), which are held by certain former owners of securities or other property acquired by the Partnership.

The Trust's management team, the officers of the Manager, and the trustees of the Trust ("Trustees") have over 100 years of combined experience in multi-family residential real estate and collectively bring a strong combination of development, construction, management, and financing experience, along with significant governance expertise. The REIT has an external asset and property management agreement through the Marwest Group. The REIT will continue to benefit from the expertise and strong infrastructure that is currently in place through the Marwest Group.

The REIT is focused on becoming a leading Western Canadian multi-family REIT specializing in high quality, income-producing properties.

Current Portfolio

The Trust's current portfolio consists of newer generation investment properties that were constructed in 2006 (103 units), 2017-2019 (148 units) and 2018-2021 (265 units). Newer generation portfolios typically require lower maintenance expenses and capital expenditures compared to older generation portfolios and, in Manitoba, new generation rentals are generally exempt from rent control. The Manitoba Government has enacted a rental freeze in 2023, whereby landlords are not permitted to increase rental rates outside of the rental guidelines, subject to certain exemptions, in 2024 the government approved rental increase is three (3) percent. 56.40% of the rental units that the Trust has acquired since inception are exempt from the rental freeze due to the age of the buildings, and unrestricted financing agreements, and as such, the Trust will continue to adjust rental rates as the market allows.

The Trust's investment properties include thoughtful resident centred amenities, including clubhouses and on-site fitness facilities.

At September 30, 2023, the Trust's portfolio included 260 townhome units which differ from standard apartment units. These townhomes are characterized by private exterior entrances to each suite, eliminating all common hallways. Townhome residences have more of a "homeownership" feel. Modern finishings appeal to renters combined with prime locations along transit routes, near shopping and schools. The rental suites owned by the Trust are pet-friendly, appealing to a broad section of renters available in the market.

Future Acquisitions

The relationship with the Marwest Group affords the Trust the potential opportunity to purchase properties developed by the Marwest Group. The independent Trustees will be responsible for the negotiation of the purchase price and other terms and conditions relating to the acquisition of any properties from the Marwest Group and/or any related parties or third parties with an interest in the asset.

The Trust completed its first third party acquisition in October 2022, and will continue to seek further third party acquisitions from owners or developers of multi family properties in selected target markets.

Management's Discussion and Analysis For the three and nine months ended September 30, 2023 (Expressed in Canadian Dollars)

Distribution

Distributions are paid monthly to Unitholders of record at the close of business on the last day of a month on or about the 15th day of the following month. Distributions must be approved by the Board of Trustees and are subject to change depending on the general economic outlook and financial performance of the Trust. Commencing January 15, 2022 until August 15, 2023, the Board of Trustees declared distributions in the amount of \$0.00125 per Trust Unit (\$0.015 per unit annualized) payable on or about the 15th day of the following month to Unitholders of record on the last day of the prior month. On August 10, 2023, the Board of Trustees approved an increase in the amount of the monthly distribution by 2% to \$0.001275 per Trust Unit (\$0.0153 per unit annualized), commencing with the distribution payable on September 15, 2023 to Unitholders of record on August 31, 2023. The cash distribution policy of the Trust may be further amended, suspended or discontinued at any time, at the discretion of the Board of Trustees.

Business Strategy and Objectives

The objectives of the Trust are:

- (a) to grow Unitholder value through capital investment strategies, and active asset and property management;
- (b) to provide Unitholders with stable and predictable cash distributions that grow over the long term; and
- (c) to grow the Trust's asset base across strategic markets through intensification and acquisition programs.

Management believes it can accomplish these objectives given future potential access to the capital markets and the relationship that the Trust has with the Marwest Group.

Declaration of Trust

The investment policies of the Trust are outlined in the Declaration of Trust, a copy of which is available on SEDAR. Some of the principal investment guidelines and operating policies set out in the Declaration of Trust are set out below:

- The Trust will focus on acquiring, holding, developing, maintaining, improving, leasing and managing income-producing rental assets within Canada and other jurisdictions the Trustees may determine from time to time;
- The Trust may make its investments and conduct its activities directly or indirectly, through an investment by way of joint ventures, co-ownerships, partnerships (general or limited) and limited liability companies;
- The Trust may invest in mortgages and mortgage bonds and similar instruments where: (i) the real property which is security for such mortgages and similar instruments is income producing real property which otherwise meets the other investment guidelines of the Trust; or (ii) the aggregate book value of the investments of the Trust in mortgages, after giving effect to the proposed investment, will not exceed 15% of Gross Book Value;
- Once the Gross Book Value reaches \$300,000,000, the Trust shall not incur or assume any indebtedness if, after giving effect to the incurring or assumption of the indebtedness, the total indebtedness of the Trust would be more than 75% of Gross Book Value or, if determined by the Independent Trustees, in their sole and absolute discretion, more than 75% of the appraised value of the assets and properties of the Trust and its Subsidiaries instead of Gross Book Value;
- The Trust will follow prudent business practices when looking to acquire an investment property by way of obtaining appraisals, environmental reports, and sufficient insurance coverage.

As of November 14, 2023, the Trust was in compliance with its investment guidelines and operating policies.

The foregoing is a general summary only and is qualified entirely by the terms of the Declaration of Trust.

Non-IFRS Measures

The Trust's interim financial statements are prepared in accordance with IAS 34, *Interim Financial Reporting*. The Trust's MD&A also contains certain non-IFRS measures commonly used by entities in the real estate industry as useful metrics for measuring performance. The non-IFRS measures used by the Trust as described below are not standardized measures under IFRS. Such non-IFRS measures disclosed by the Trust may not be comparable to similar financial measures disclosed by others. Readers are cautioned to not place undue reliance on such non-IFRS measures. Reconciliations of these non-IFRS measures to the most directly comparable financial measures calculated and presented in accordance with IFRS are included within the Financial Operations and Results Section.

Net Operating Income ("NOI")

The Trust calculates net operating income as revenue less property operating expenses such as utilities, repairs and maintenance and realty taxes. Charges for interest or other expenses not specific to the day-to-day operations of the Trust's properties are not included. The Trust regards NOI as an important measure of the income generated by income-producing properties and is used by management in evaluating the performance of the Trust's properties. NOI is also a key input in determining the value of the Trust's properties. For reconciliation to IFRS measures, refer to "Financial Operations and Results"

Management's Discussion and Analysis
For the three and nine months ended September 30, 2023
(Expressed in Canadian Dollars)

Funds from Operations ("FFO")

The Trust calculates FFO substantially in accordance with the guidelines set out in the white paper titled "White Paper on Funds from Operations & Adjusted Funds from Operations for IFRS" by the Real Property Association of Canada ("REALpac") as revised in January 2022. FFO is defined as IFRS consolidated net income adjusted for items such as unrealized changes in the fair value of the investment properties, effects of puttable instruments classified as financial liabilities and changes in fair value of financial instruments and derivatives. FFO should not be construed as an alternative to net income or cash flows provided by or used in operating activities determined in accordance with IFRS. The Trust regards FFO as a key measure of operating performance. For reconciliation to IFRS measures, refer to "Financial Operations and Results"

Adjusted Funds from Operations ("AFFO")

The Trust calculates AFFO substantially in accordance with the guidelines set out in the white paper titled "White Paper on Funds from Operations & Adjusted Funds from Operations for IFRS" by REALpac as revised in January 2022. AFFO is defined as FFO adjusted for items such as maintenance capital expenditures and straight-line rental revenue differences. AFFO should not be construed as an alternative to net income or cash flows provided by or used in operating activities determined in accordance with IFRS. The Trust regards AFFO as a key measure of operating performance. The Trust also uses AFFO in assessing its capacity to make distributions. For reconciliation to IFRS measures, refer to "Financial Operations and Results"

The following other non-IFRS measures are defined as follows:

- "FFO per unit" is calculated as FFO divided by the weighted average number of Trust Units and Exchangeable Units of the Partnership outstanding over the period.
- "AFFO per unit" is calculated as AFFO divided by the weighted average number of Trust Units and Exchangeable Units of the Partnership outstanding over the period.
- "AFFO Payout Ratio" is the proportion of the total distributions on Trust Units and Exchangeable Units of the Partnership to AFFO per Unit.
- "Net Asset Value" is calculated as the sum of Unitholders' Equity and Exchangeable Units
- "Net Asset Value per Unit" or "NAV per Unit" is calculated as the sum of Unitholders' Equity and Exchangeable Units of the Partnership divided by the sum of Trust Units, Exchangeable Units and Deferred Units outstanding at the end of the period.
- "Debt-to-Gross Book Value ratio" is calculated by dividing total interest-bearing debt consisting of mortgages by total assets and is used as the REIT's primary measure of its leverage.
- "Debt Service Coverage ratio" is the ratio of NOI to total debt service consisting of interest expenses recorded as finance costs and principal payments on mortgages.
- "Liquidity ratio" is the ratio of current assets to current liabilities excluding Exchangeable Units of the Partnership.
- "Stabilized net operating income" is the estimated 12-month net operating income that a property could generate at full occupancy, less a vacancy rate and stable operating expenses.
- "Average occupancy rate" is defined as the ratio of occupied suites to the total suites in the portfolio for the period.
- Same Property NOI" is defined as Net Operating Income from properties owned by the REIT throughout comparative periods, which removes the impact of situations that result in the comparative period to be less meaningful, such as acquisitions, or properties going through a lease-up period.

Management's Discussion and Analysis
For the three and nine months ended September 30, 2023
(Expressed in Canadian Dollars)

SUMMARY OF 2023 RESULTS AND OPERATIONS

Occupancy Rates

The REIT has reported an average occupancy rate¹ of 99.52% for the three months ended September 30, 2023 (98.33% for the three months ended September 30, 2022) and 98.98% for the nine months ended September 30, 2023 (96.43% for the nine months ended September 30, 2022). The average occupancy rate¹ for the first nine months of 2022 was lower than anticipated due to a lower renewal rate at the end of Q4 2021, which management believes resulted from excessive cold spells and above average snowfall resulting in limited interest in the leasing of vacant units.

Average Occupancy Rate¹ Summary by Quarter

Mortgage Interest Rates and Future Renewals

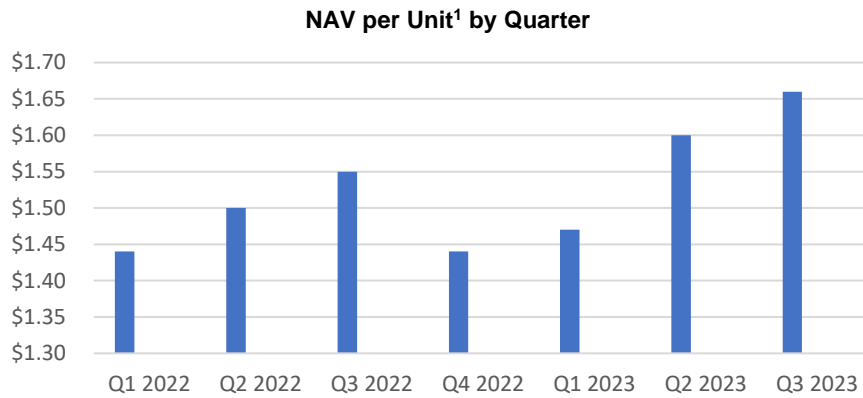

At September 30, 2023 two of the seven mortgages that are held within the portfolio are currently financed without CMHC insurance, one with a term expiring in January 2024. For the mortgage maturing in January 2024, secured against phase 1 of Element (40 of 112 units of this investment property), management anticipates refinancing the Element Phase I mortgage with Canada Mortgage and Housing Corporation ("CMHC") financing and a CMHC application is currently pending review and approval. If the CMHC application is approved management will look to secure a lender. In the event the CMHC application is approved and the period to obtain a new lender is finalized past the maturity date, management has commenced discussions with the current lender to extend the current maturity date for up to a six month period. If the CMHC application is denied, management will pursue a conventional loan. While Management of the Trust is confident that one of the above options will materialize, there is no assurance that one of the above options will materialize. In the event that the mortgage is not refinanced prior to the renewal date or the maturity date cannot be extended, the lender would have the right to demand repayment of amounts outstanding, and if not repaid, begin realizing on their security under the mortgage.

The REIT is exposed to risks related to debt financing. Global financial markets have experienced a sharp increase in volatility during recent years. Underlying market conditions may continue or become worse, and unexpected volatility and illiquidity in financial markets may inhibit the REIT's access to long-term financing in the Canadian capital markets. As a result it is possible that financing required by the REIT to grow and expand its operations may not be available to the REIT on favourable terms or at all. Increases in interest rates could adversely affect the REIT's results of operations.

Management's Discussion and Analysis
For the three and nine months ended September 30, 2023
(Expressed in Canadian Dollars)

NAV per Trust Unit¹

The REIT reported a NAV per Unit¹ of \$1.66 (December 31, 2022 - \$1.44). The increase in NAV per Unit¹ is primarily due to the increase in the valuation of investment property due to changes in market conditions throughout all properties, such as increases in estimated 12-month stabilized NOI¹ due to market rent increases in properties where allowable, and the paydown of mortgages.

Asset Management Fees and Trustee Compensation

For the three and nine months ending September 30, 2023, asset management fees of \$85,565 and \$250,249, respectively, were charged (three and nine months ended September 30, 2022 - \$28,053 and \$84,159, respectively) inclusive of GST. The Manager agreed to waive 50 percent of the asset management fees in 2022. Trustees were remunerated approximately 50 percent of their pro-rated annual compensation in Deferred Units, in accordance with the Equity Incentive Plan, with the remaining 50 percent plus meeting fees paid in cash. See note 8 of the interim financial statements for further details.

OUTLOOK

Management anticipates the demand for rental housing to continue to grow, as evidenced in the October 2023 CMHC Housing Supply Report, which noted that the current level of new construction activity remains insufficient to address Canada's housing supply crisis and affordability issues in the long run.

The REIT is subject to the laws and regulations governing the ownership and leasing of real property, employment standards, environmental and energy efficiency matters, taxes and other matters. It is possible that future changes in applicable Canadian federal, provincial, municipal or common laws or regulations or changes in their enforcement or regulatory interpretation could result in changes in the legal requirements affecting the REIT (including with retroactive effect). Any changes in the laws to which the REIT will be subject in the jurisdictions in which it operates could materially affect the rights and title to the Properties of the REIT. It is not possible to predict whether there will be any further changes in the regulatory regime(s) to which the REIT is subject or the effect of any such change on the REIT's investments.

Management is focused on growing the portfolio and unitholder value through increasing rental rates where the market allows, future acquisition opportunities that will increase the overall size and improve the performance of the Trust, as well as maintaining a manageable debt structure. The current debt of the Trust is all at fixed terms with an average remaining mortgage term of over five years, with one mortgage maturing January 2024, as discussed under "Mortgage Interest Rates and Future Renewals". Management believes the organic growth in NAV¹ due to the paydown of mortgages over time will lower the Debt-to-Gross Book Value ratio¹ thereby increasing the NAV per Unit¹.

The real estate industry is highly capital intensive. The REIT requires access to capital to fund its growth strategy and any capital expenditures from time to time. There can be no assurance that the REIT will have access to sufficient capital or access to capital on terms favourable to the REIT for future property acquisitions, financing or refinancing of Properties, funding operating expenses or other purposes.

FINANCIAL OPERATIONS AND RESULTS

Valuation

The fair value of residential properties is typically determined using the direct capitalization approach. Stabilized net operating income¹ for each property is capitalized at an appropriate capitalization rate and then a deduction is made for certain capital expenditures that each property may require. Stabilized net operating income¹ for each property is estimated as the 12-month net operating income that a property could generate at full occupancy, less a vacancy rate and stable operating expenses. The Province of Manitoba has a school tax rebate which is not included in stabilized operating expenses for valuation purposes. Capitalization rates reflect the characteristics, location and market of each property. Fair value is determined based on external appraisals obtained and internal valuation models incorporating market data and valuations performed by external appraisers. At September 30, 2023, all of the properties were valued internally. The weighted-average capitalization rate used at September 30, 2023 was 5.21 percent (December 31, 2022 – 5.25 percent).

The Trust's investment properties are recorded at a fair value of \$130,030,000 at September 30, 2023 (December 31, 2022 - \$126,803,030). The Trust recorded a fair value gain of \$695,272 and \$3,173,043 for the three and nine months ended September 30, 2023 (three and nine months ended September 30, 2022 - \$677,493 and \$4,641,034). The fair value gain was attributable to updated market conditions throughout all properties, such as increases in estimated 12-month stabilized NOI¹ due to market rent increases in properties where allowable.

NAV per unit¹	\$1.66	\$1.44

At September 30, 2023, NAV¹ was \$32,702,561 representing a NAV per Unit¹ of \$1.66 (December 31, 2022 - \$28,229,106 representing a NAV per Unit¹ of \$1.44). The increase in NAV per Unit¹ is primarily due to the increase in the valuation of investment property due to changes in market conditions throughout all properties, such as increases in estimated 12-month stabilized NOI¹ due to market rent increases in properties where allowable, and the paydown of mortgages in the three and nine months ended September 30, 2023.

Exchangeable Units are not indebtedness for the purposes of Debt-to-Gross Book Value ratio¹ and therefore are not included in the determination of the Debt-to-Gross Book Value ratio¹.

Total assets at September 30, 2023 are \$135,353,656. The increase from December 31, 2022 is mainly due to the increase in fair value of the investment properties. Total liabilities of \$108,722,208 at September 30, 2023 include mortgages payable of \$101,111,169 and \$6,071,113 relating to outstanding Exchangeable Units. During the three and nine months ending September 30, 2023, mortgages decreased by \$447,748 and \$1,342,545 due to principal payments and amortization of mark-to-market adjustments and deferred financing costs.

Revenue from investment properties

Revenue from investment properties consists of rental revenue from residential lease agreements, parking revenue and other property revenue. For the three and nine months ended September 30, 2023, Revenue from investment properties was \$2,496,143 and \$7,437,591. An increase over the three and nine months ended September 30, 2022 of 48.60% and 51.24% due to the acquisition of the Prairie View Pointe Property and a higher occupancy rate on the remaining assets compared to the same period in the prior year.

Management's Discussion and Analysis
For the three and nine months ended September 30, 2023
(Expressed in Canadian Dollars)

Property operating expenses

Property operating expenses for the three and nine months ended September 30, 2023 were \$610,127 and \$2,019,516. An increase over the three and nine months ended September 30, 2022 of \$147,073 and \$495,480 due to the acquisition of the Prairie View Pointe Property, however the increase was offset by lower snow clearing costs in the first three months of 2023 compared to 2022 on the remainder of the portfolio.

Realty taxes

For the three and nine months ended September 30, 2023 realty taxes of \$225,858 and \$677,574 were incurred. An increase over the three and nine months ended September 30, 2022 \$51,834 and \$192,027 was primarily due to the addition of the Prairie View Pointe Property and was offset by provincial School Tax Rebates received at each property.

Net operating income¹

For the three and nine months ended September 30, 2023 the Trust generated \$1,660,158 and \$4,740,501 of NOI¹ respectively (three and nine months ended September 30, 2022 - \$1,042,689 and \$2,908,229). The Trust acquired the Prairie View Pointe Property in October 2022, which is reported in the first three and nine months of 2023 but not included in the prior year 2022.

General and administrative expenses

General and administrative expenses relate to the administration of the Trust, including: legal fees, audit fees, Trustee compensation and other public company costs.

Finance costs

Finance costs are comprised of interest expense on mortgages payable, loan and financing charges, distributions on Exchangeable Units, amortization of financing charges, CMHC fees and mark-to-market adjustments on mortgages payable, and is offset by interest income.

Summary of Finance costs	Three months ended		Nine months ended	
	2023	2022	2023	2022

Fair value gain on Exchangeable Units

The Exchangeable Units are issued by the Partnership. The Exchangeable Units are economically equivalent to Trust Units, in that a holder is entitled to receive cash distributions from the Partnership equal to the cash distributions paid on Trust Units and are exchangeable into Trust Units at the holder's option on a one-for-one basis (subject to customary anti-dilution adjustments). The Exchangeable Units are classified as financial liabilities of the Trust and measured at fair value with any changes in fair value recorded in net income. The fair value gain or loss on the Exchangeable Units is measured every period by reference to the closing trading price of the Trust Units. An increase in the Trust Unit closing price over the period results in a fair value loss, whereas a decrease in the Trust Unit closing price results in a fair value gain.

During the nine months ended September 30, 2023, the market price of the Trust Units decreased from the December 31, 2022 market price of \$0.85 per Trust Unit to \$0.56 per Trust Unit at September 30, 2023. The decrease in market value for the period resulted in a fair value gain on the Exchangeable Units of \$3,143,970.

Fair value gain on unit-based compensation liability

The Trust has issued Deferred Units to its Trustees. The liability is remeasured at each reporting date based on the closing Trust Unit price with changes in value recorded in net income.

During the three and nine months ended September 30, 2023, the Trust experienced a fair value (loss) gain of (\$3,612) and \$55,011 from changes in the Trust Unit price for the Deferred Units outstanding at December 31, 2022 and the Deferred Units issued in the period. For the nine months ended September 30, 2023, the Unit price decreased from \$0.85 to \$0.56.

Assessment of Financial Position

Investment Properties

The following table summarizes the changes in investment properties for the three and nine months ended September 30, 2023 and 2022.

Summary of Changes in Investment Properties	Three months ended September 30		Nine months ended September 30	
	2023	2022	2023	2022
Opening balance	\$ 129,323,001	\$ 89,550,000	\$ 126,803,030	\$ 85,495,008

Closing balance	\$ 130,030,000	\$ 90,270,000	\$ 130,030,000	\$ 90,270,000

Valuation

Under the direct capitalization approach the estimated 12 month stabilized net operating income¹ is utilized on the individual properties, less estimated aggregate future capital expenditures to determine fair value. Capitalization rates fluctuate based on market conditions, such as the demand for rental housing and interest rates. The weighted-average capitalization rates for the properties were 5.21 percent at September 30, 2023 and 5.25 percent at December 31, 2022.

Exchangeable Units

The holders of Exchangeable Units are entitled to receive cash distributions from MAR REIT L.P. equivalent to the cash distributions that the Trust pays to the holders of Trust Units and are exchangeable into Trust Units at the holder's option on a one-for-one basis (subject to customary anti-dilution adjustments). One Special Voting Unit in the Trust is issued to the holder of Exchangeable Units for each Exchangeable Unit held. The limited IAS 32 exception for presentation as equity does not extend to Exchangeable Units. As a result, the Exchangeable Units are classified as financial liabilities.

At September 30, 2023, there were 10,841,274 Exchangeable Units and 10,894,987 Special Voting Units outstanding. The outstanding Special Voting Units include:

- Special Voting Units accompanying Deferred Units issued on or before March 31, 2022; and
- Special Voting Units accompanying all Exchangeable Units of MAR REIT L.P. outstanding on September 30, 2023

During the three and nine months ended September 30, 2023, distributions to holders of Exchangeable Units of \$41,196 and \$122,500 were declared based on approved monthly distributions of \$0.00125 per Trust Unit and increased to \$0.001275 per Trust Unit effective to Unitholders of record on August 31, 2023.

Mortgages Payable

The Trust's mortgages are at fixed interest rates that are secured by the investment properties. The mortgages bear interest at a weighted average contractual interest rate of 3.01 percent and mature at dates between January 2024 and June 2032, resulting in a weighted average term to maturity of 70.29 months. Refer to page 8 under "Mortgage Interest Rates and Future Renewals" for further information regarding the mortgage maturing January 2024.

Trust Units

The Declaration of Trust authorizes the issue of an unlimited number of Trust Units. As at September 30, 2023, there were 8,657,564 Trust Units outstanding with a carrying value of \$6,657,710. On March 31, 2022, the Trust commenced a normal course issuer bid ("NCIB") which allows the Trust to purchase up to 787,956 of the Trust Units for cancellation. The NCIB was in effect until March 30, 2023 and was not renewed. During the nine months ended September 30, 2023, 10,000 Trust units were purchased and cancelled, at a weighted average price of \$0.60 (September 30, 2022 – 164,000 units cancelled).

Distributions

Distributions are paid monthly to Unitholders of record at the close of business on the last day of a month on or about the 15th day of the following month. Distributions must be approved by the Board of Trustees and are subject to change depending on the general economic outlook and financial performance of the Trust. During the three and nine months ended September 30, 2023, distributions to Unitholders of \$32,898 and \$97,855 were declared based on approved monthly distributions of \$0.00125 per Trust Unit until August 15, 2023 and \$0.001275 per Trust Unit effective to Unitholders of record on August 31, 2023.

Management's Discussion and Analysis

For the three and nine months ended September 30, 2023

(Expressed in Canadian Dollars)

Liquidity, Capital Resources and Contractual Commitments

The Trust's capital structure at September 30, 2023 is set out in the table below:

	September 30, 2023	December 31, 2022
Exchangeable Units	\$ 6,071,113	\$ 9,215,083
Unit based compensation liability	85,577	93,531
Mortgages	101,111,169	102,118,460
Unitholders' equity	26,631,448	19,014,023
Total	\$ 133,899,307	\$ 130,441,097

The objective of the REIT's capital strategy is to arrange capital at the lowest possible cost while balancing mortgage maturities and having sufficient liquidity to fund ongoing operations of the REIT and pay distributions. 100% of the REIT's debt is at fixed interest rates.

The REIT uses a significant amount of debt financing in its capital structure. Pursuant to the Declaration of Trust, additional indebtedness may not be incurred if overall indebtedness would exceed 75 percent of the gross book value of the REIT once gross book value reaches \$300,000,000.

As at	At September 30, 2023	At December 31, 2022
Current Assets	\$ 2,024,374	\$ 1,637,673
Current Liabilities	8,689,757	2,720,791
Liquidity Ratio¹	23.30%	60.19%

The liquidity ratio¹ has decreased from December 31, 2022 due to one mortgage maturing in January 2024. The mortgage maturing in January 2024, secured against the Element Phase I Property. Management has a CMHC application pending related to this mortgage. If the CMHC application is approved management will look to secure a lender. In the event the CMHC application is approved and the period to obtain a new lender is finalized past the maturity date, management has commenced discussions with the current lender to extend the current maturity date for up to a six month period. If the CMHC application is denied, management will pursue a conventional loan. While Management of the Trust is confident that one of the above options will materialize, there is no assurance that one of the above options will materialize. In the event that the mortgage is not refinanced prior to the renewal date or the maturity date cannot be extended, the lender would have the right to demand repayment of amounts outstanding, and if not repaid, begin realizing on their security under the mortgage.

Cash Flows and Use of Funds

During the three and nine months ended September 30, 2023 and 2022 the Trust reported the following changes in cash.

	Three months ended		Nine months ended	
	September 30, 2023	September 30, 2022	September 30, 2023	September 30, 2022
Cash provided by operating activities	\$ 624,351	\$ 503,836	\$ 1,902,036	\$ 1,054,373
Cash used in investing activities	(11,727)	(692,507)	(53,927)	(783,958)
Cash provided by (used in) financing activities	(480,430)	2,046,376	(1,466,056)	1,160,790
Change in cash during the period	\$ 132,194	\$ 1,857,705	\$ 382,053	\$ 1,431,205

Cash provided by operations exceeded cash used in financing activities in Q3 2023 and 2023 year-to-date, the increase attributable to higher revenue generated from the addition of the Prairie View Pointe Property and higher occupancy rates compared to the three and nine months ended September 30, 2022. Cash used in financing activities increased in the three and nine months ended September 30, 2023 over September 30, 2022 to reflect the increase in mortgage payments with the acquisition of the Prairie View Pointe Property. In Q3 2022 the Brio Phase I mortgage was refinanced resulting in positive cash from financing activities.

Distributions declared	\$ 74,094	\$ 73,379	\$ 220,355	\$ 220,392

Excess of net income and comprehensive income over total distributions paid increased compared to the prior comparable period due to the addition of Prairie View Pointe and an increase in fair value gains in Q3 2023 and year-to date 2023 compared to Q3 2022.

At September 30, 2023, the excess of cash provided by operating activities over total distributions and interest paid also increased due to higher cash flow from operations from the addition of Prairie View Pointe and overall higher portfolio occupancy rates compared to the same period in 2022.

Variations in property revenue and net income is due to the closing of the qualifying transaction on April 30, 2021, thus Q2 2021 reported only 2 months of operations. In Q4 2021 the acquisition of the Element Property occurred on November 15, 2021, thus there were only 46 days of operations reported for this property in Q4 2021. In Q4 2022 Prairie View Pointe was acquired on October 31, 2022, representing 62 days of operations in Q4 2022. Seasonal variations in operating expenses also contribute to quarterly fluctuations in Net Income, NOI¹, AFFO¹ and FFO¹.

SAME PROPERTY PORTFOLIO PERFORMANCE

Same property results for the three and nine months ended September 30, 2023 are defined as all properties owned and operated by the REIT throughout the comparative periods being reported, and therefore do not take into account the impact on performance of acquisitions, dispositions, or properties going through a lease-up during the period from April 1, 2022 to December 31, 2022. The same property portfolio represents 363 units or 70.35% of the total portfolio at September 30, 2023.

	Three months ended September 30		Nine months ended September 30	
	2023	2022	2023	2022
Revenue from investment properties	\$ 1,734,311	\$ 1,679,766	\$ 5,177,770	\$ 4,917,811

Same Property Net Operating Income ¹	\$ 1,151,587	\$ 1,032,689	\$ 3,394,952	\$ 2,908,228

Same property rental revenues for the three months ending September 30, 2023 increased by 3.24% compared to the three months ended September 30, 2022 due to rent increases and lower vacancy rates. Property operating costs decreased by 3.42% as a percentage of operating revenues, respectively, whereas property taxes as a percentage of operating revenues decreased by 1.50% due to higher school tax rebates and increases in property assessments. This resulted in an overall decrease in operating expenses, as a percentage of operating revenues of 4.92% as compared to the same period last year.

For the nine months ended September 30, 2023, same property rental revenues increased by 5.29% over the nine months ended September 30, 2022, due to higher occupancy and rent increases. Property operating costs decreased by 5.33% as a percentage of operating revenues, respectively, whereas property taxes as a percentage of operating revenues decreased by 1.10% due to higher school tax rebates and increases in property assessments. This resulted in an overall decrease in total operating expenses for the nine months ended September 30, 2023, as a percentage of operating revenues of 6.43% as compared to the same period last year.

Total operating expenses were decreased by 9.95% in the three months ended September 30, 2023 over 2022, this was due to an increase in the school tax rebate as well as a reduction in general operating costs compared to the same period last year. When combined with the 3.24% increase in revenue from rental properties, this resulted in an increase in same property NOI¹ of \$118,898, or 11.51% as compared to the same period last year.

For the nine months ended September 30, 2023, total operating expenses were decreased by 11.28% in the three months ended September 30, 2023 over same period 2022, this was due to an increase in the school tax rebate and lower snow and waste removal costs year compared to the prior year. When combined with the 5.29% increase in revenue from rental properties for the nine months ended September 30, 2023 over 2022, this resulted in an increase in same property NOI¹ of \$486,724, or 16.74% as compared to the same period last year.

The average monthly rent for the three months ended September 30, 2023 for same property increased to \$1,541 per suite from \$1,502 at September 30, 2022, an increase of 2.60%. The average occupancy rate¹ for the three months ended September 30, 2023 for same property was 99.52%, compared to 98.33% for the same period ended 2022.

The average monthly rent for the nine months ended September 30, 2023 for same property increased to \$1,534 per suite from \$1,507 at September 30, 2022, an increase of 1.79%. The average occupancy rate¹ for September 30, 2023 for same property was 98.98%, compared to 96.43% for the same period ended 2022.

ACCOUNTING ESTIMATES AND POLICIES, CONTROLS AND PROCEDURES AND RISK ANALYSIS

Critical Judgments in Applying Accounting Policies

Significant areas of judgment, estimates and assumptions are set out in note 3 to the annual audited consolidated financial statements for the years ended December 31, 2022 and 2021.

Risks and Uncertainties

The REIT faces a variety of diverse risks, many of which are inherent in the business conducted by the REIT. These are described in detail under the heading "Risks and Uncertainties" in the REIT's Management's Discussion and Analysis for the years ended December 31, 2022 and 2021 and in the REIT's Annual Information Form for the year ended December 31, 2022, each filed on SEDAR (www.sedarplus.ca). These factors still exist at the end of this quarter and remain relatively unchanged.

Financial Risk Management

In the normal course of business, the Trust is exposed to a number of risks that can affect its operating performance.

These risks and the actions taken to manage them include the following:

i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk consists of interest rate risk, currency risk and other price risk.

Interest rate risk is the risk that changes in market interest rates will affect the Trust's financial instruments. As of September 30, 2023 and December 31, 2022, the Trust's mortgages bore interest at fixed rates

Management monitors anticipated interest rate changes and mitigates the negative impact of interest rate increases by locking in interest rates early where applicable.

The Trust's financial statement presentation currency is in Canadian dollars. Operations are located in Canada and the Trust has limited operational transactions in foreign-denominated currencies. As such, the Trust has no significant exposure to currency risk.

Other price risk is the risk of variability in fair value due to movements in equity prices or other market prices such as commodity prices and credit spreads.

The Trust is exposed to other price risk on its Exchangeable Units and warrants. A one percent change in the prevailing market price of the Exchangeable Units as at September 30, 2023 would have a \$60,711 (December 31, 2022 - \$92,150) change in the fair value of the Exchangeable Units.

ii) Credit risk

Credit risk is the risk that tenants may experience financial difficulty and be unable to fulfill their lease commitments. An allowance for impairment is taken for all expected credit losses.

Management mitigates this risk by carrying out appropriate due diligence on the prospective tenant and obtaining security deposits. Management monitors the collection of residential rent receivables on a regular basis with strict procedures that fall within the provincial regulations designed to minimize credit loss in the case of non-payment. The risk of exposure to credit risk is generally limited to the carrying amount of the financial statements.

The Trust's maximum exposure to credit risk is equivalent to the carrying value of each class of financial asset as separately presented in cash and accounts and other receivables.

Management assesses the impairment of tenant receivables on an individual basis and uses the simplified approach measure expected credit losses; this will be at the lifetime expected credit losses associated with the arrangement.

Management determines that an amount receivable is credit impaired based upon previous collection history, as well as forward looking information where available regarding economic trends in the tenant's industry and the region the tenant is in. Impairment losses are recognized in the condensed consolidated interim statements of income and comprehensive income within investment properties operating expenses.

(iii) Liquidity risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they become due. The Trust manages this risk by aiming to have sufficient cash on hand to meet obligations as they come due by forecasting cash flows from operations, cash required for investing activities and cash from financing activities.

An analysis of the contractual cash flows at September 30, 2023 associated with the Trust's material financial liabilities is set out below:

	Year 1	Year 2	Year 3	Year 4	Year 5 and thereafter	Total
Mortgages payable - principal and interest	\$ 10,636,603	\$ 4,539,308	\$ 4,539,309	\$ 34,886,193	\$ 65,536,747	\$ 120,138,160

Included within the contractual cash flows of mortgages payable in year 1 is \$6,007,297 related to a mortgage maturing in January 2024, for more information regarding this mortgage see page 8, "Mortgage Interest Rates and Future Renewals".

RELATED PARTY TRANSACTIONS

In the normal course of operations, the Trust enters into various transactions with related parties. In addition to the related party transaction disclosed elsewhere in the interim financial statements, related party transactions for the three and nine months ended September 30, 2023 and 2022 include:

Related Party Transactions	Three months ended September 30		Nine months ended September 30

On April 30, 2021, the Trust and the Manager entered into a management agreement with a term of ten years, with subsequent renewal periods for further five-year terms, relating to various asset management and property management services. On April 30, 2021, a sub-agreement between the Manager and Marwest Management Canada Ltd., a company under common control, was entered into for the property management of Marwest Apartments I L.P. and Marwest Apartments VII L.P. On November 15, 2021, a sub-agreement between the Manager and Marwest Management Canada Ltd. was entered into for the property management of Marwest (Element) Apartments L.P.

For the year ending December 31, 2022, the Manager waived 50% of the Asset Management Fees eligible under the Asset Management Agreement.

During the three and nine months ended September 30, 2023, the Board of Trustees were issued an aggregate of 14,495 and 42,780 Deferred Units at an aggregate value of \$15,944 and \$47,057 along with \$15,210 and \$30,252 respectively in cash as part of the annual Trustee remuneration (2022 – 14,047 and 27,896 Deferred Units at an aggregate value of \$15,675 and \$46,360 and \$16,109 and \$47,048 cash as part of annual Trustee remuneration respectively). The Trustees were also remunerated \$1,500 per board meeting in the three and nine months ended September 30, 2023 and 2022.

INCOME TAXES

The *Income Tax Act* (Canada) (the "Act") contains legislation affecting the tax treatment of specified investment flow-through (SIFT) trusts which include publicly-listed income trusts (the "SIFT Rules"). Under the SIFT Rules, certain distributions from a SIFT are not deductible in computing a SIFT's taxable income, and the SIFT is subject to tax on such distributions at a rate that is substantially equivalent to the general tax rate applicable to a Canadian corporation.

However, distributions paid by a SIFT as returns of capital are generally not subject to tax. The SIFT Rules do not apply to a real estate investment trust that meets prescribed conditions relating to the nature of its assets and revenue (the "REIT Conditions"). Instead, a real estate investment trust that meets the REIT Conditions is not liable to pay Canadian Income taxes provided that its taxable income is fully distributed to unitholders during the period.

The REIT has reviewed the SIFT Rules and has assessed their application to the REIT's assets and revenues. While there are uncertainties in the interpretation and application of the SIFT Rules, the REIT believes that it has met the REIT Conditions for the three and nine months ended September, 2023 and 2022, and accordingly is not subject to current income taxes. Accordingly, no provision for current income taxes payable is required.

CONTINGENCIES AND COMMITMENTS

The Trust is subject to claims and legal actions that arise in the ordinary course of business. It is the opinion of Management that any ultimate liability that may arise from such matters would not have a significant adverse effect on the interim financial statements of the Trust.

FUTURE CHANGES IN ACCOUNTING STANDARDS

The following accounting standards under IFRS have been issued or revised, however are not yet effective and as such have not been applied by the Trust.

Classification of Liabilities as Current or Non-Current

On January 23, 2020, the IASB issued amendments to IAS 1, *Presentation of Financial Statements* (the 2020 amendments), to clarify the classification of liabilities as current or non-current. On October 31, 2022, the IASB issued Non-current Liabilities with Covenants (Amendments to IAS1) (the 2022 amendments), to improve the information an issuer provides about long-term debt with covenants. The 2020 amendments and the 2022 amendments (collectively "the Amendments") are effective for annual periods beginning on or after January 1, 2024. Early adoption is permitted. An entity that applies the 2020 amendments early is required to also apply the 2022 amendments.

For the purposes of non-current classification, the 2020 amendments removed the requirement for a right to defer settlement or roll over a liability for at least twelve months to be unconditional. Instead, such a right must have substance and exist at the end of the reporting period.

The amendments reconfirmed that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current. Covenants with which a company must comply after the reporting date do not affect a liability's classification at that date.

The amendments also clarify how a company classifies a liability that includes a counterparty conversion option. The Amendments state that settlement of a liability includes transferring a company's own equity instruments to the counterparty and when classifying liabilities as current or non-current a company can ignore only those conversion options that are recognized as equity. The REIT is assessing the impact of the Amendments.
